

NO:

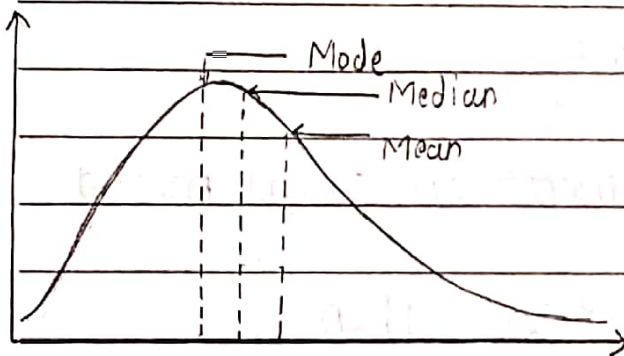

Date:

* Mean, Median, Mode relation with frequency distribution.

Symmetrical Curve

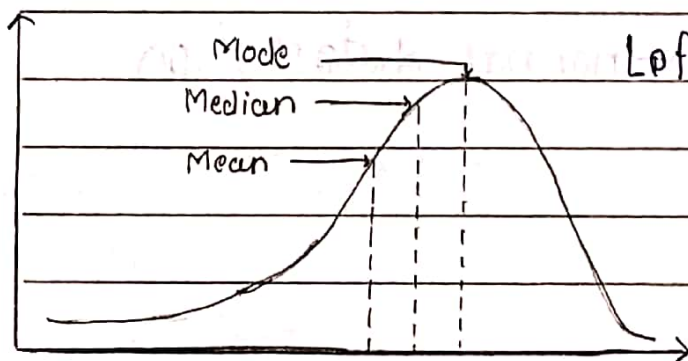

e.g. Rolling dice
Age distribution

Right Skewed (Positively skewed)

$\text{Mean} > \text{Median} > \text{Mode}$

e.g. Wealth distribution

Left Skewed (Negatively skewed)

$\text{Mean} < \text{Median} < \text{Mode}$

e.g. Life span of human being.
